

EXPRESS COFFEE SERVICE

Expecting lots of guests today? Regardless of how many are coming, everyone should get a fresh, good-tasting cup of coffee, and service should be fast. Coffee breaks should be pleasurable - not a long wait in a queue. With the help of Serving Concept, all your coffee wishes can come true.

We always have machines and accessories to suit your business, regardless of whether you are two guests or you are serving at the biggest conference of the year. Serving Concept is the name!

TOWER FOR WALL MOUNTING

A tower brewer for wall mounting. Used with complementary serving carts and extra serving stations for practical brewing and serving. 4 serving stations and 2 carts are included.

SINGLE CATER / CATER

A quick and flexible brewer that brews directly into an elegant 2.5 litre serving station with tap and sight glass. Cater is available as a single or double brewer. Brewing time is approx. 5.5 minutes. The brewer features automatic water refill, a full and half brewing function, built-in tank and hot water tap on the front of the machine.

SERVING STATION

For those who pay attention to detail and the impression they make on their guests. The serving stations not only allow you to serve good coffee. You can also show your guests special care by specially designing the display lids of the serving stations. It is easy and looks great. Imagine what impression you will make when all the served coffee types are profiled on the lid. Or why not promote your company logo? You know what they say – a product is the sum of the parts.

Exciting opportunities for profiling and printing on the display lid, both on the smaller 2.5 litre and the larger 5 litre stations, make the serving station unique.

SINGLE TOWER

A quick, easy-to-use brewer with the options of full and half brewing. A full brew, i.e. 5 litres, takes about 7 minutes. Tea water dispensing and alarms to signal when brewing is finished come standard. The brewing takes place directly into a 5-litre serving station with tap, sight glass and integrated handle.

TOWER

Brewing with Tower is twice as fast, as it takes place on both sides simultaneously. An easy-to-use brewer that makes 10 litres of coffee in about 7 minutes, with the option of full or half brewing. An alarm signalling that brewing is finished, tea water dispensing and two 5-litre serving stations with tap, sight glass and integrated handle.

MEGA GOLD M / A

An effective brewer with manual or automatic water refill. Its capacity is approx. 17 cups in 7 minutes, and brewing takes place directly in a practical 2.4 litre serving station. The brewers with automatic water refill have a digital display and an alarm that signals when brewing is finished. The brewing amount can be adjusted between 4 and 17 cups.

GRINDER ORIGINAL

An elegant and silent grinder for grinding coffee beans directly into the filter holder or measuring cup. A clear display shows the number of cups to be ground. You can even select the coarseness. Fits all our Original and Serving Concept coffee brewers, as well as most 1.8 litre brewers on the market. The bean canister can hold about 2.5 kg of beans.

COFFEE QUEEN

SERVING CONCEPT

WITH A PASSION FOR COFFEE

Crem International has two very strong brands – Coffee Queen and Expobar. Under the brand Coffee Queen, we have brought together all our machines for freshly brewed and instant coffee, water and juice. Under the brand Expobar, we offer our top-quality espresso machines. All our machines are made by skilful and experienced staff at our own factories in Sweden, Spain and China. With these two brand, we offer the widest range on the market and can satisfy all needs and wishes.
